Dear Ms. Hostetler:

The Nebraska-Western Iowa Health Care System survey team conducted a four day review of the Grand Island State Veterans Home on June 4, 2007 through June 7, 2007. At that time the Grand Island State Veterans Home was found to have some deficiencies that needed to be corrected in order to obtain compliance with VA standards. Subsequently, the Grand Island State Veterans Home completed and submitted a Plan of Correction to address deficiencies identified by the survey team. The VA Nebraska-Western Iowa Health Care System survey team reviewed the Plan of Correction and requested that the Grand Island team revisit and revise their plan of correction which was done. The second Plan of Correction and the actions identified were deemed appropriate to address the deficiencies. The VA NWIHCS team nurse, dietician and social worker revisited the Grand Island State Veterans Home on December 5, 2007, and found all deficiencies corrected which met all VA standards.

The Grand Island State Veterans Home has met VA standards and the survey team recommended that you continue to be certified. Accordingly, I have certified that the Grand Island State Veterans Home meets VA standards.

If there are any questions, please contact Kay Stofer, LCSW at (308) 382-3660, extension 92340.

Sincerely,

Al Washko
